

10th Annual Congress of Association of Hair Restoration Surgeons of India

8th - 10th February 2019 | Marriott Hotel, Indore, India

Message from President

Hair restoration is one of the most sought-after procedures in men. This field has seen a lot of changes from punch grafts to follicular unit extractions and transplantation. Starting with the inclusion of stereo microscopes to the use of Robotics, the field of hair restoration has evolved rapidly in the last three decades. "BEYOND SCALP" as the theme suggests will help redefine hair restoration, releasing it from the shackles of scalp donor limitations. Expanding donor capabilities by using hair from non-scalp areas and restoring hair in non-scalp areas like beard, mustache, eyebrows etc is the core concept of this conference.

We have invited 5 International stalwarts each one of them being an expert in this field and we are sure that they will play an important role in the scientific deliberations.

I welcome you all.

With best wishes,
Greetings from the Organizing Committee of HAIRCON 2019.

Dr. K. Ramachandran
MS, MCh, Plastic Surgeon
